1-

This is the Second Citizens Directory to be issued by the Midwest Public Affairs Office (Region V) of the U.S. Environmental Protection Agency.

All listings in this Directory were current and accurate as of May 1, 1973. We feel that this directory is more complete than our first attempt, but keeping up with changes in citizen groups is a very difficult task.

If your group was not mentioned, we apologize. There is a form at the back of the directory you can use to let us know what changes we might include in the next directory. To keep this guide current, we are printing only 1,200 copies of it and will issue a revised edition within the next six months.

The purpose of this directory is to help foster communication between groups in this region. We hope you will find it useful.
